

ALL-ON-FOUR

LIVE PATIENT SURGERY
& LECTURE

MIAMI, FL

VISHTASB BROUMAND, DMD MD

South Beach
Dental Training Institute

www.SobeDental.com

The ALL-ON-FOUR concept employs a screw-retained prosthesis whose shortened treatment time leads to greater patient satisfaction.

COURSE OVERVIEW

This course is designed for clinicians with advanced experience in implant dentistry who are eager to provide solutions for full-arch immediate-load prosthesis for partially edentulous patients and those with terminal dentition.

ADVANTAGES

The All-on-4™ Technique provides numerous advantages in the management of the edentulous patient or the soon-to-be edentulous patient.

- » Ease of the procedure
- » Ability to avoid grafting procedures
- » Potential of immediate loading at the surgical appointment
- » Decreased cost to the patient
- » Aesthetics
- » Can be performed on the partially or fully edentulous patient
- » Ease of maintenance
- » Can be flapless
