

Overview of Full Arch Implant Rehabilitation

LECTURE &
LIVE SURGERY

MIAMI, FL
VISHTASB BROUMAND, DMD, MD

COURSE OVERVIEW

Join us for a one-day course overview on this exciting cutting-edge topic! Held in Miami, Florida, now is the time to take advantage of these must-have skills! The synopsis approach will introduce attendees to the particulars behind the FAIR concept. The course will include a lecture and surgery demonstration showing the denture conversion into an immediate transitional prosthesis.

Want to see what all the buzz is about and if FAIR sounds like the FAIR approach to implant dentistry? Then sign up for this course today before spaces fill up!

ADVANTAGES

Full arch implant rehabilitation provides numerous advantages in the management of the edentulous patient or the soon-to-be edentulous patient.

- Ease of the procedure
- Ability to avoid grafting procedures
- Potential of immediate loading at the surgical appointment
- Aesthetics
- Can be performed on the partially or fully edentulous patient
- Ease of maintenance
- Can be flapless

DOCTORS WILL CLOSELY OBSERVE LIVE PATIENT SURGERY, PERFORMED BY DR. BROUMAND

FAIR FACTS – WHAT SETS FAIR APART?

- The prosthesis is immediate, fixed, esthetically pleasing, highly functional, low-cost, and easy to maintain
- The FAIR procedure can frequently be performed without bone grafting, and it has exceptional success rates
- Many patients dreaded the intensity of older procedures, and others (particularly the elderly and those with advanced osteoporosis) were not good candidates for dental bone grafting

For this course doctors will closely observe live patient surgery, performed by Dr. Broumand. After this course, the participants will:

- Plan patient selection, reviewing indications and contraindications.
- Recognize pre-treatment procedures.
- Do surgical protocols and considerations.
- Review restorative measures.
- Apply laboratory procedures.
- Plan conversion of a denture to a fixed temporary prosthesis

SO DOES FAIR SOUND FAIR TO YOU?
