ABOUT ARUN K. GARG, DMD

Once, maybe twice in a generation, does a truly transformative leader emerge in any given field. For dentistry, that leader is Dr. Arun K. Garg. For more than 25 years Dr. Garg has transformed dentistry from both the patient and practitioner perspective – performing innovative surgeries on more than 250 days a year and also lecturing around the country on a variety of cutting-edge dental procedures. As the co-discoverer of platelet-rich plasma (PRP) and the preeminent authority on advanced bone grafting, Dr. Garg's teachings and signature instructional style are sought out across the United States and around the world.
