

2 DAY COURSE

Sedation Dentistry:
The Anxiety-Reducing
Oral Solution

Take the stress out of dentistry today and help your patients relax during their dental visit. Doing so will enable you and your staff to provide optimal dental care. The result will be enhanced patient services, new referrals, and a newfound confidence in your practices' ability to take on any case!

Sedation Dentistry: The Anxiety Reducing Solution - 2 Day Course

This two-day course is designed to provide extensive knowledge on Minimal Oral Sedation and Nitrous Oxide in accordance with the American Dental Association's Guidelines for the Use of Anesthesia and Sedation in the Dental Office.

COURSE OUTLINE

Lectures:

- Picking the Right Patients: Patient Assessment
- Understanding the Basics: Clinically Useful Pharmacology
- Keeping Patients Safe: Physiologic Monitoring
- Picking the Right Drugs: Inhalational & Oral Sedatives
- The Perfect Sedation Appointment: Appropriate Protocols
- Emergencies: Patient Safety and Reversal Agents

Educational Objectives:

- Discuss the principles of patient assessment and monitoring
- Understand the clinical useful pharmacology of sedative choices
- Learn how to match the right drug at the right dose to the right patient and the right procedure
- Describe the characteristics of the ideal sedatives for in-office use and give examples
- Understand the equipment required to monitor your patients safely
- Master the art of anxiolysis and plan for the perfect appointment
- The lecture portions of this seminar will be augmented with practical components to include Bag-Mask-Valve (BMV) breathing and a review of nitrous oxide machines, including monitoring equipment

COURSE OUTLINE

Lectures:

- Management of patients with bleeding disorders or on Anticoagulants
- Dentistry and Drug Interactions
- Common Drugs for Uncommon Patients
- Herbal Concerns in Dentistry
- Diabetics and Cardiovascular Patients
- What's in Your Emergency Kit – and Why

Educational Objectives:

- Understand how to avoid or manage potential drug interactions
- Recognize potential herbal and drug interactions that can affect dentistry
- Know the medications you need to have in your emergency kit and how to use them
- Achieve optimal patient care through appropriate prescribing (especially for patients with cardiac issues and patients with bleeding risks)
- Describe the other tools you should have to ensure a safe treatment environment

COURSE INSTRUCTORS

Mark Donaldson, BSP, ACPR, PHARMD, FASHP, FACHE

Mark Donaldson, BSP, PHARMD, FASHP, FACHE received his baccalaureate degree from the University of British Columbia and his Doctorate in Clinical Pharmacy from the University of Washington. He completed a residency at Vancouver General Hospital, and has practiced as a clinical pharmacy specialist, clinical coordinator and director of pharmacy services at many healthcare organizations in both Canada and the United States. He is currently the Director of Clinical Pharmacy Performance Services for Vizient, in Whitefish, Montana.

Dr. Donaldson is a Clinical Professor in the Department of Pharmacy at the University of Montana in Missoula, and Clinical Associate Professor in the School of Dentistry at the Oregon Health & Sciences University in Portland, Oregon. He has a special interest in dental pharmacology and has lectured internationally to both dental and medical practitioners. He has spent the last 18 years focusing on dental pharmacology and dental therapeutics, and is a leader in the field.

Dr. Donaldson has published numerous peer-reviewed works and textbook chapters. He currently serves on the Editorial Board for the Journal of the American Dental Association, is board certified in healthcare management and is the Past-President of the American College of Healthcare Executives' Montana Chapter. Dr. Donaldson was named as the 2014 recipient of the Bowl of Hygeia for the state of Montana and is the 2016 recipient of the Dr. Thaddeus V. Weclaw Award. This award is conferred upon an individual who has made outstanding contributions to the art and science of dentistry and/or enhanced the principles and ideals of the Academy of General Dentistry.

Jason H. Goodchild, DMD

Jason H. Goodchild, DMD is a graduate of Dickinson College in Carlisle, Pennsylvania. He received his dental training at the University of Pennsylvania School of Dental Medicine where he still holds a faculty position as a Clinical Associate in the Department of Oral Medicine. As part of his training and service in the Department of Oral Medicine he was educated in enteral sedation and completed numerous cases at the dental school and the Hospital of the University of the University of Pennsylvania. As a part of his faculty duties he treats patients with complex medical histories, and oversees students and residents.

He is also Clinical Assistant Professor in the Division of Oral Diagnosis, Department of Diagnostic Sciences at the New Jersey Dental School. He teaches the next generation of dentists excellence in patient care, and introduces the concepts of enteral sedation to fourth-year dental students in the classroom.

Dr. Goodchild has published numerous articles and spoken to many State Dental Boards on the topic of enteral sedation dentistry. He has been an invited speaker for the Academy of General Dentistry and American Association of Dental Examiners. He is a reviewer for the Journal of the American Dental Association, General Dentistry, and Quintessence International. He has also served as a grant reviewer for the National Institute of Health.

Dr. Goodchild maintains an active private practice in Havertown, Pennsylvania.

ORAL SEDATION seminars

"Best class I've attended since dental school graduation (1986)"

- LN (Modfrey, IL)

"Excellent, informative courses"

- JS (Godfrey, IL)

"This program was fantastic. The presentations were easy to follow and it provided real-world experiences"

- CS (Omaha, NE)

"Amazing speakers very valuable information no time wasted -- worth every minute."

- SA (Joliet, IL)

"Dr. Goodchild and Dr. Donaldson did a great job presenting - awesome duo! Well thought out class that allows you to implement learned information the next day in the office."

- GT (Chicago, IL)

"Information was presented in an easily understandable format. Both speakers were engaging and informative."

- MM (Chicago, IL)

"This is an excellent class to bring a very confusing pharmacology topic into an easy to understand format. This information will make any practitioner a safer, more confident and better dentist."

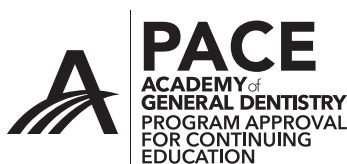

- ST (Englewood, FL)

"Very useful. Will definitely make me a more complete and better doctor. Thank you!"

- JM (Miami, FL)

"Very informative! Both doctors are excellent presenters and knowledgeable. I'm very glad I attended."

- JD (Decatur, AL)

Implant Seminars is designed as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by state or provincial board of dentistry or AGD endorsement. The current term of approval extends from 12/1/2017 to 11/30/2020. Provider # 215694
