

CREATING PREDICTABLE RESTORATIONS:

# Crown Lengthening

Learn Techniques for both  
Functional and Esthetic  
Crown Lengthening

Full Day Lecture with Workshop

*South Beach*  
Dental Training Institute

# Crown Lengthening

Faced with a cusp fractured below the gingiva?  
Prepping too far under the gingiva and not getting predictable impressions?  
Planning esthetic restorations in the anterior and facing uneven tissue or a "Gummy Smile?"

Crown extension is one of the most commonly required procedures in restorative dentistry, yet it is often underutilized. Enjoy an in-depth look at the evidence-based concepts and practical applications for Clinical Crown Lengthening and learn how to enhance predictability for your restorations and impressions. Gain the peace of mind that you are current in your treatment planning choices.

Techniques are discussed for both Functional and Esthetic Crown Lengthening. Including: how to handle hard and soft tissues; proper surgical techniques; preservation of esthetics in the final tissue contours; and relocation of all structures that comprise the biologic width, namely: sulcus, junctional epithelium, connective tissue fibers, and bone.

This course includes hands-on exercises and many case illustrations, plus two video demonstrations of surgical technique. The full day workshop offers the opportunity to practice these procedures on pig jaws and anatomically correct models.

The workshop is suitable for clinicians with or without surgical experience, who want to do some or most of their own crown extensions or just want to know more about the subject.

## Participants will learn:

- How to make predictable impressions every time
- Why crowns come loose and how to prevent it
- Methods that save chair time and increase profit
- Causes of red gum tissue around margins
- How to diagnose esthetic crown lengthening
- To understand the Gummy Smile
- How to coordinate surgery with restorative procedures

*"I just wanted to personally tell you how refreshing it was to attend a workshop that empowered me to be more confident in my treatment options."*

- Michelle Hudson DDS; Philadelphia, PA

## Course Instructor

Dr. James Kohner is a leading specialist in the periodontal world of dental health. He is an expert in the management of periodontal infection using non-surgical methods, as well as being current on the latest procedures relating to surgical therapy. He has presented at the American Academy of Periodontology meetings for many years and presented lectures at the Harvard School of Dental Medicine. He is a current member of both the American Dental Association and the American Academy of Periodontology, plus is a professional member of the National Speakers Association. With over 35 years in private practice and more than 20 years teaching, Dr. Kohner has the experience to make his courses meaningful. If your goal is to learn about what it takes to deliver new procedures to your patients, then his programs will give you the information you need.

## Course Agenda

8:30 am - 9:00 am	Intro, Indications, Principles including Biologic Width and Ferrule
9:30 am - 9:45 am	Break
9:45 am - 10:45 am	Discussion of surgical technique including suturing. Surgical video shown
10:45 am -11:45 am	Hands-on surgery on pig jaws
11:45 am -12:45 pm	Lunch
12:45 pm - 2:00 pm	Post op requirements, medications, anterior considerations including diagnosis and flap management in anterior, gummy smile
2:00 pm - 2:30 pm	Discussion of osseous surgery technique. Surgical video shown
2:30 pm - 2:40 pm	Break
2:40 pm - 3:00 pm	Discussion of osseous surgery exercise
3:00 pm - 3:30 pm	Osseous hands-on exercise
3:30 pm - 3:55 pm	Case discussion including x-ray diagnosis
3:55 pm - 4:00 pm	Closing remarks

*"You clarified all the confusion and simplified the procedure."*  
- Raemund Galang DDS; Daly City, CA

*"Thank you very much for such a terrific seminar. You have given me the confidence to start and I have already booked four ideal starter cases for crown lengthening. You have inspired my interest in dentistry again after 11 years of general practice. Thank you!"*

- Andre Tam, Waterdown, Ontario
