

# CROWN LENGTHENING

## Creating Predictable Restorations

LEARN TECHNIQUES FOR BOTH FUNCTIONAL AND ESTHETIC CROWN LENGTHENING

Crown extension is one of the most commonly required procedures in restorative dentistry, yet it is often underutilized. Enjoy an in-depth look at the evidence-based concepts and practical applications for Clinical Crown Lengthening and learn how to enhance predictability for your restorations and impressions. Gain the peace of mind that you are current in your treatment planning choices.

Techniques are discussed for both Functional and Esthetic Crown Lengthening. Including: how to handle hard and soft tissues; proper surgical techniques; preservation of esthetics in the final tissue contours; and relocation of all structures that comprise the biologic width, namely: sulcus, junctional epithelium, connective tissue fibers, and bone.

This course includes hands-on exercises and many case illustrations, plus two video demonstrations of surgical technique. The full day workshop offers the opportunity to practice these procedures on pig jaws and anatomically correct models.

The workshop is suitable for clinicians with or without surgical experience, who want to do some or most of their own crown extensions or just want to know more about the subject.

### PARTICIPANTS WILL LEARN:

- How to make predictable impressions every time
- Why crowns come loose and how to prevent it
- Methods that save chair time and increase profit
- Causes of red gum tissue around margins
- How to diagnose esthetic crown lengthening
- To understand the Gummy Smile
- How to coordinate surgery with restorative procedures

### JAMES KOHNER D.D.S.

**Dr. James Kohner** is a leading specialist in the periodontal world of dental health. He is an expert in the management of periodontal infection using non-surgical methods, as well as being current on the latest procedures relating to surgical therapy. He has presented at the American Academy of

Periodontology meetings for many years, and numerous state and national meetings. He is a current member of both the American Dental Association and the American Academy of Periodontology, plus is a professional member of the National Speakers Association. With over 35 years in the private practice of Periodontics and more than 20 years teaching, Dr. Kohner has the experience to make his courses meaningful.
