

ZYGOMA IMPLANTS

Lecture, Workshop, and
(YOU PERFORM) Live Patient Surgery

Sao Paulo, Brazil | October 13-15, 2023

Gain the Skills and Confidence to Successfully Place Zygomatic Implants

**Presurgical Planning, CT Scan Review,
Surgical Procedures, Marketing,
Complications and more**

Now in our 5th year of presenting this completely original and innovative course, we are proud to continue to present this original and industry leading, comprehensive, detailed, step-by-step program on Zygoma Implants. The course include a thorough review of surgical presurgical planning, surgical procedures and protocols required to perform this advanced surgery and presented by book and book chapter authors with decades of experience performing and teaching this procedure.

Zygomatic implants are ideal in circumstances where maxillary bone quality or quantity is insufficient to support standard or all-on-x placement and restoration. Or if needed then utilizing Zygoma implants in conjunction with standard or all-on-x implants.

This course will cover:

- Patient selection and Treatment Planning – Pre-Operation Patient's Condition
- Assessment for rehabilitation of the Atrophic Maxilla
- Anatomical and X-Ray interpretation connected with the placement of Zygomatic Implants
- The Surgical Protocol for Zygomatic Implants
- Avoiding and Managing Complications
- Impressions and laboratory work pre and post surgery
